

Australian Horticulture Placements 2017/2018

Lakeland - Queensland

A large family run banana plantation with approximately 100 employees from all over the world.

1,600 ha farm and bushland, 250 ha bananas, large compost operation.

Duties differ depending on previous experience and skills but the various jobs on the farm primarily involve the harvesting and packing of bananas. Medium level of responsibility for horticulture and mechanical trainees.

- Most female trainees work in the packing facility
- Male trainees are engaged in the packing facility, field work on machinery or other farm maintenance work.
- Mechanics - maintain and repair all machinery and irrigation equipment.
