

# THE OHIO STATE UNIVERSITY

---

## **Internship with Crop Protocols project. 6-12 month in a modern greenhouse in Virginia.**

We are seeking motivated applicants with passion in ornamental horticulture.

Required qualifications:

- Education in horticulture or closely related sciences
- Some experience with ornamental plants – annuals and perennials
- Good English language. Spanish language a bonus
- Understanding of ornamental horticulture business realities
- Great work ethics and drive
- Willingness to work in an international team

Your main focus will be to gather growth requirements for over 100 species by reviewing various documentation and interviewing employees. You will review and enter this data into a centralized system that will be easier to access for growers. You must be flexible and accept additional projects and assignments.

Good housing is provided on site, the internship is paid.

Please contact Greg Lecki: [Lecki.1@osu.edu](mailto:Lecki.1@osu.edu) or Leckig on skype.

To apply click offer ID 153 in the Current Offer section at [OhioProgram.org](http://OhioProgram.org)
