

THE OHIO STATE UNIVERSITY

Landscape installation and maintenance internship in a medium size landscaping company.

We are seeking applicants interested in establishing and maintaining ORGANIC residential landscape settings on Cape Cod, Massachusetts.

Required qualifications:

- Education in landscape architecture or very closely related sciences
- Experience with ornamental plants: annuals and perennials including trees and shrubs
- Experience with establishing and maintaining residential gardens
- Good English language skills
- Excellent ethics and morals
- Desire to expand knowledge and skills every day

You will have an opportunity to spend 6-9 months in a medium size landscape company on beautiful Cape Cod. This internship starts in March, April or May and will last until December (weather dependent).

The family that owns this company is very outgoing and friendly. They love outdoor activities and they invite interns to participate in the slower season. This company specializes in organic landscaping with no use of chemicals. This means that most of the weeding is done by hand.

This is a very nice, friendly company located in one of the most attractive East Coast destinations. Very good, well paid internships for single interns or couples that are not afraid of hard work and willing to have an unforgettable adventure in the USA.

Please contact Greg Lecki: Lecki.1@osu.edu or Leckig on skype and see offer ID 133 in the Current Offer section at OhioProgram.org
