

Mixed farm opportunities Netherlands

1. Mixed, arable & young stock

Crops: grasslands, sugar beets, chicory, sunflowers, potatoes, coarse crops, 125 ha

Animals: 350 head of young cattle and heifers for export.

Training place available for March, April, May for an interested trainee with a practical attitude.

2. Dairy farm

200 milking cows, 150 head of young cattle, 100 ha grassland, 15 ha for bulbs and potatoes (rented).

Free stall barn, 2014: new milking parlour (rotating).

Training place available from end of August onwards.

3. Dairy farm

145 milking cows, 90 head of young cattle, 75 Ha of grassland, and land rented out for tulips, broccoli etc. and grassland rented in.

2 x 11 herringbone milking parlour, 4 tractors, hay tedder, mower, 2 x grass collector. Feeding car, milk drinking automat, concentrate box.

Training place available, preference for a trainee who it also open for a family with young children.

4. Livestock: Sheep

600 sheep (Swifter/Texel). An open-minded company with a lot of variation in the work. The sheep are grazing on the dikes in the neighbourhood.

Training placement is available for any period year round.

5. Poultry, laying hens (33.000)

We are a leading company in this business, modern and sustainable. The free range poultry can walk free in and out of the barn. Most eggs will be sold in the surrounding area. A smaller part will be exported to Germany.

6. Livestock: Pigs

900 store pigs and 1100 fattening pigs, Slob feed installation, Group housing system, air system, and fermenter. We have a modern pig farm, with good results.

Training placement available in the fall.

7. Dairy

160 cows, 80 young stock, 30 ha of grass, 39 ha of maize, 8 ha of fodder beet, milking robot

Sustainable, modern management that focuses on milking the cows with time left for family and other activities. The milk is used for Ben & Jerry's ice-cream. The company focuses on efficient working. The company has used the automatic milking system since 1999. The machine activities that they do themselves are spreading fertilizer, mowing, shaking, and raking. For other activities they hire the contractor.

Training placement available for 3-4 months in Spring-Summer.

8. Dairy and cheese making

They also have a small camping-site and they take care of people with an intellectual disability (30 people each day). There are 400 milking cows and 80 young cattle (75 ha.), 52 ha of grassland and 23 ha of corn. The company is building a new stable at the moment.

9. Poultry

Animals: laying hens (40,000), cocks (4000).

Deliver hatching eggs to other companies who do the hatching of the eggs. (After 17 weeks, the young hens go to a poultry company for the production of consumption eggs)

Training place available for max 3 months and only for a trainee who has experience and a great interest in the sector.
